

# HOIN JUNG

Purdue University, West Lafayette, IN, USA

jung414@purdue.edu | 765)532-2263 | linkedin.com/in/hoinjung

## EDUCATION

---

### Purdue University

West Lafayette, IN, USA

*Ph.D. in Electrical and Computer Engineering*

Jan. 2023 – Expected May 2027

- Dissertation: Efficient Surgical Interventions for Trustworthy Multimodal Machine Learning Systems

### Seoul National University

Seoul, Korea

*M.S. in Computational Science and Technology*

Sept. 2020 – Aug. 2022

- Thesis: Local-Ensemble Graph Collaborative Filtering with Spectral Co-Clustering

### Korea Aerospace University

Goyang, Korea

*B.E. in Aerospace & Mechanical Engineering*

Mar. 2010 – Feb. 2014

- Major of Aircraft System Engineering

## RESEARCH INTERESTS

---

### Trustworthy & Efficient Multimodal Systems

#### Research Context

- Primary Domain: Trustworthy AI, Multimodal Systems, Retrieval-Augmented Generation (RAG)
- Key Problems: Factual Grounding, Fairness & Debiasing, Hallucination, Bias & Recorruption

#### Research Methodology

- Core Philosophy: Efficient Post-Hoc Methods without Costly Retraining
- Key Techniques: Internal Feature & Logit Adjustment, Context-aware Pooling, Fair-Factual Reranking

## WORK EXPERIENCE

---

### Heterogeneous Integration Design Institute

West Lafayette, IN, USA

*Research Assistant, Elmore ECE Emerging Frontiers Center*

Jan. 2023 – Present

- Designed an automatic generative designer for multi-band planar antenna
- Engineered an explainable model for the ML-based EM simulation via SHAP values

### Samsung Research America

Irvine, CA, USA

*Research Scientist Intern*

May. 2025 – Aug. 2025

- Collaborated with engineers as a research scientist intern on AI-driven Smart TV solutions
- Designed an automatic keyboard navigation system powered by a vision-language model, designed for real-world deployment across Smart TV applications

### Samsung Electronics

Suwon, Korea

*Engineer, R&D Team, Department of Digital Appliance*

Aug. 2017 – Aug. 2020

- Developed the thermo-fluid performance of freezing system for brand-new refrigerator
- Analyzed and optimized refrigeration cycle control system to reduce the power usage

### ROK Air Force

Chungju, Korea

*Lieutenant, Aircraft Maintenance Officer, The 19<sup>th</sup> Fighter Wings*

Jun. 2014 – May. 2017

- Managed aircraft line maintenance and administered ground safety department for the military base

## PUBLICATIONS

7. **H.Jung**, V.Nascimento, H.Liu, X.Wang, C.K.Koh, and D.Jiao, “Explainable and Automated Antenna Designer with Generative AI”, *IEEE Transactions on Antennas and Propagation*, 2025.

## AWARDS AND SCHOLARSHIP

---

Outstanding Reviewers (Top 5%), CVPR 2025	Jun. 2025
Purdue Graduate Student Government Travel Grant	Nov. 2024
NeurIPS 2024 Scholar Award	Oct. 2024
NeurIPS 2024 Spotlight Paper (Top 2.5%)	Oct. 2024

Future Industry Talent Graduate Scholarship  
*Hyundai Motor Chung Mong-Koo Foundation*  
National S&T (Science & Technology) Scholarship  
*Korea Student Aid Foundation*

Fall 2021 – Spring 2022

Fall 2010

## ACADEMIC SERVICE

---

### Conference Reviewing & Program Committees

- Program Committee: AAAI (2025, 2026)
- Reviewer: ICLR (2026), CVPR (2025, 2026), WACV (2026), NeurIPS (2025), SafeMM-AI Workshop (ICCV 2025), ECCV (2024), AAAI (2024), KDD (2024)

### Journal Reviewing

- IEEE Transactions on Geoscience and Remote Sensing

### University Service

- Grant Review and Allocation Committee, Purdue Graduate Student Government

## LEADERSHIP

---

**Mentor**, Purdue ECE G-LaMP (Graduate Leadership and Mentorship Program) (2025-2026)

**Co-Chair**, ICON Student Research Conference, Purdue University (2026)

**Vice President**, Students Government, Korea Aerospace University (2013)

## PRESENTATIONS

---

1. “Adaptive Logit Adjustment for Debiasing Multimodal Language Models” Mar. 2025  
*Poster, Purdue ECE Open House Symposium*
2. “A Unified Debiasing Approach for Vision-Language Models across Modalities and Tasks” Dec. 2024  
*Spotlight Poster, Neural Information Processing Systems (NeurIPS 2024)*
3. “An Efficient and Unified Debiasing Approach for Vision-Language Models across Modalities and Tasks” Jul. 2024  
*Lightning Talk, Fast Machine Learning for Science Conference 2024*
4. “Explainable Planar Multiband Antenna Designer with Wasserstein Generative Adversarial Network” Jul. 2024  
*Oral, 2024 IEEE International Symposium on Antennas and Propagation*
5. “Boundary Improvement Module for Binary Semantic Segmentation in Remote Sensing” Jun. 2021  
*Oral, Korean Society for Industrial and Applied Mathematics (KSIAM)*
6. “Segmentation model for tracking building in satellite imagery” Nov. 2020  
*Poster, Korean Society for Industrial and Applied Mathematics (KSIAM)*

## TEACHING EXPERIENCE

---

### ECE 570 Artificial Intelligence

*Teaching Assistant, Electrical & Computer Engineering*

Purdue University, West Lafayette, IN  
Fall 2024, Spring 2025

- Held office hours and led student projects across three course sections, serving a total of 545 students

### Computer Literacy & Programming (Python)

*Instructor, Language Education Institute*

Seoul National University, Seoul, Korea  
Mar. 2021 – Jul. 2022

- Designed and delivered a Python programming course for beginner-level students for three semesters

### L0444: Basic Computing (Python)

*Teaching Assistant, Faculty of Liberal Education*

Seoul National University, Seoul, Korea  
Spring 2021, Spring 2022

- Led weekly lab sessions for 50+ students each semester
